

## Ethos Clinic ADHD Policy

---

Please be advised that Ethos Clinic will not be accepting new adult ADHD patients unless the patient is able to provide a recent neuropsychological evaluation that demonstrates this diagnosis. In order to obtain a neuropsychological evaluation you can call the member services number on the back of your insurance card and ask what providers may be in network. If your insurance requires a referral for this type of evaluation we urge the patient to reach out to their PCP, in order to complete appropriate neuropsychological testing prior to starting treatment at Ethos Clinic.
